Email: akku.gautam23@gmail.com
Mobile: +91-9508281675

SKILLS

- **Languages:** C++, JavaScript, Python, Java
- **Frameworks:** Numpy, Pandas, Matplotlib, Seaborn, Scikit-learn
- **Tools/Platforms:** MySQL, Jupyter Notebook, Git, GitHub, Excel, PowerBI
- **Soft Skills:** Problem-Solving, Team Player, Adaptability

PROJECTS

Weather-DashBoard | [Github](#)

Aug'2025

- Built an interactive Power BI Weather Dashboard to visualize real-time and historical weather data using intuitive charts and maps.
- Designed clean, user-friendly dashboards with filters, slicers, and drill-down features for deeper data insights.
- Analyzed key weather parameters like temperature, humidity, and precipitation to identify patterns and trends.
- Improved data storytelling and decision-making by transforming raw weather data into actionable visual insights.

AI-ChatBot | [Live](#)

Apr-May2025

- Developed an AI-powered Mental Health Journal Chatbot to provide empathetic conversations and mood-based reflections.
- Implemented NLP and sentiment analysis to detect user emotions and deliver personalized responses.
- Designed an interactive UI with mood tracking, journaling features, and real-time chat experience.
- Integrated secure API handling and session management to ensure privacy, scalability, and smooth user interaction.

Crop-Yield Prediction | [Live](#)

Oct-Nov 2025

- Developed a Crop Yield Prediction System using machine learning to estimate agricultural output based on historical and environmental data.
- Analyzed factors like rainfall, temperature, soil type, and crop patterns to improve prediction accuracy.
- Built data preprocessing pipelines and trained models for reliable and scalable predictions.
- Enabled data-driven decision-making for farmers by providing insightful and actionable yield forecasts.

TRAINING

DATA TO INSIGHT

Jun'25-Aug'25

- Focus: Data Science & Analytics — From Data to Insights
- Completed an in-depth, hands-on training program on Data Science fundamentals, covering end-to-end data analysis workflows.
- Worked on structured module-based assignments and applied learning through mini-projects, turning raw data into meaningful insights.
- Strengthened understanding of industry-relevant data analysis tools, methodologies, and best practices, enhancing readiness for real-world data roles.

CERTIFICATES

- Complete Python For Machine Learning Tutorial – Cipher School (by Shambhavi) | [Linkedin](#) Feb'25
- Java Programming – Neocolab | [Linkedin](#) May'25
- Master Generative AI & AI Tools (ChatGPT & More) – Udemy (Saad A) | [Linkedin](#) Sep'25

ACHIEVEMENTS

- Solved 150+ coding problems across platforms like LeetCode, GeeksforGeeks, and HackerRank, improving proficiency in Data Structures & Algorithms (DSA) and problem-solving.

EDUCATION

- **Lovely Professional University** Punjab, India Aug'23-Present
- *Bachelor of Technology - Computer Science and Engineering; CGPA: 7.2*
- **Oxford Senior Secondary School** Muzaffarpur, Bihar May'20-Jun'22
Intermediate; Percentage: 83.6%
- **Oxford Senior Secondary School** Muzaffarpur, Bihar Mar'19-Mar'20
Matriculation; Percentage: 80%
